

$\int$ QAB  
**Society for the Quantitative Analyses of Behavior**  
**34<sup>th</sup> Annual Meeting, May 26-28, 2011**  
*Hyatt Regency Denver, CO*  
SQAB events will be located in Ballrooms DE

---

**Thursday Evening, May 26, Ballroom E**  
*1<sup>st</sup> Poster Session, Cash Bar & Registration (5:00-8:00 pm)*

---

**Friday, May 27, Ballroom D**  
*Registration, Coffee & Pastries (7:00-8:00 am)*

**8:00 Alliston K. Reid**, *Wofford College*. President's introduction (8:00 – 8:15 am)

**Special Section on Extinction**

**8:15 K. Matthew Lattal**, *Oregon Health & Science University*,  
Extinction and behavior: What are we modeling and how do we do it?

**8:50 Ralph R. Miller & Mario A. Laborda**, *SUNY-Binghamton & University of Chile*,  
Extinction and recovery: Theory, current research, and potential applications

*Break – Refreshments (9:25)*

**10:00 Andy Delamater**, *Brooklyn College – City University of New York*,  
Extinction effects on sensory specific associations

**10:35 Gavan P. McNally**, *The University of New South Wales*,  
Placing prediction into the fear circuit

**11:10 Rick A. Bevins**, *University of Nebraska-Lincoln*,  
Disentangling the nature of the nicotine stimulus with extinction learning

*Lunch (12:00-1:45)*

**1:45 Mark E. Bouton, Travis P. Todd, Drina Vurbic, and Neil E. Winterbauer**  
*University of Vermont*, Contextual control of operant extinction learning

**2:20 William M. Baum**, *University of California, Davis*,  
Extinction as Discrimination

**2:55 John A. Nevin**, *University of New Hampshire*  
Resistance to extinction and behavioral momentum

*Break – Refreshments (3:30)*

**4:00 Federico Sanabria & Timothy H. C. Cheung**, *Arizona State University*  
“Extinction under a behavioral microscope “

**4:35 Daniel Gottlieb**, *Sweet Briar College*  
Inferring asymmetries in learning curves for acquisition and extinction of conditioned responding

**5:10 C. R. Gallistel, A. M. Daniel, & E. B. Papachristos, &**, *Rutgers University*  
A rationalist approach to extinction

**Business meeting, Ballroom D (6:00 pm)**

**2<sup>nd</sup> Poster Session & Cash Bar, Ballroom E (6:30 – 9:00 pm)**

---

**Saturday, May 23, Ballroom D**

*Registration, Coffee & Pastries (7:15-8:30 am)*

**8:30** **Kimberly Kirkpatrick & Tiffany Galtress**, *Kansas State University*  
Motivation and timing

**9:05** **Nathalie Boutros, Michael Davison, & Douglas Elliffe**, *University of Auckland*  
Strengthening versus signaling processes in reinforcement.

*Break – Refreshments (9:40)*

**10:00** **David W. Stephens**, *University of Minnesota*  
Why experience matters: Reliability and uncertainty in the evolution of behavioral plasticity”

**10:35** **Panel Discussion**

**11:10** **Closing Remarks**

---

**∫QAB Invited Preeminent Tutorials: From Basics to Contemporary Paradigms**  
**Saturday afternoon, May 28: Ballroom D**

<b>Time</b>	<b>Speaker</b>	<b>Affiliation</b>	<b>Title</b>	<b>Introduced by</b>
<b>1:00</b>	<b>Neville M. Blampied</b>	University of Canterbury, New Zealand	Single-Case Research Designs: Useful Tools for 21 <sup>st</sup> Century Applied Research	Ray Pitts , UNC Wilmington
<b>2:00</b>	<b>Kennon A. Lattal</b>	West Virginia University	Facets of Operant Extinction	K. Matthew Lattal, Oregon Health & Science University
<b>3:00</b>	<b>Amy L. Odum</b>	Utah State University	Delay discounting: Who, what, when, where, why, and how?	James E. Mazur, Southern Connecticut State University
<b>4:00</b>	<b>Mia Stephens</b>	SAS Institute	Visualization and Data Analysis with JMP	Alliston Reid, Wofford College
